
The Daily Display of the YWD Dayplanner provides the following facilities:

- o Title Bar - The title bar displays the day that the user selects.
- o Scroll Bar - The scroll bar is used for the free text section of the daily viewer. Since the user might have paragraphs of description regarding appointments, scrollbar allows the display or more information in the window.
- o Appointment Times - The appointment times displays all the times that the user has an appointment scheduled. It lists the time range that of the schedule only. The user can click on the time he/she has an appointment and the free text section will jump to the description regarding the appointment that is happening at that time.
- o Free Text Section - The free text section display the time one has an appointment and the description of the event that is happening at that time. This is used so that the user can scroll down and see all the appointments for that day.
