
The Overlay Information section of the YWD Dayplanner provides the following facilities:

- o Vertical Scrollbar - This is used if there exists more user than the window can hold.
- o Horizontal Scrollbar - This is used in order to show all the hours in the window.
- o Hourly Display - Shows the hour of the day.
- o Scheduled Blocks - Block out the time the person has something scheduled.
- o Free Time Blocks - Shows the block of time the list of people have free.
- o Add Button - Allows the user to add a person in the overlay display.
- o Group Button - Allows the user to select from a created group and display them in the overlay information.
